

Corporation Pop

21-23 Shudehill

Manchester

M4 2AF

Junior Front-end Developer

Corporation Pop is a design company.

Passionate about the work we produce and the people we produce it for, we believe in the power of design to change lives, influence people and make things better. We work hard to push boundaries, challenge convention and deliver solutions that are successful for our clients. And we have a bloody good time doing it!

It is for these reasons that forward-thinking companies like Channel 4, EMI, Bench and Cream choose to work with us delivering exciting and often ground-breaking projects across a range of media and devices – from websites and facebook apps to virtual environments and solutions for new TV platforms.

If you're an ambitious recent(ish) graduate with a hunger to learn, a passion for what you do and a desire to share our vision then we would very much like to hear from you.

It is essential that you:

- have a proven ability to hand code semantically correct HTML and CSS
- have an understanding of web standards (accessibility, usability, coding practices)
- have a working knowledge of Adobe CS particularly Photoshop and Illustrator
- can demonstrate a meticulous approach to your work with a keen eye for detail
- have an appreciation of good design
- have bags of initiative and are an enthusiastic self-starter
- relish the opportunities and surprises that a diverse workload will throw at you

It would be great if you:

- have experience setting up WordPress sites and creating custom WordPress themes
- have experience of javascript and javascript libraries such as jQuery
- have experience of marking up HTML for email newsletters
- have experience of HTML5 and CSS3
- have experience of responsive web design and mobile web
- have experience coding in PHP
- have experience of version control systems such as Subversion, Git or Mercurial
- have an understanding of SEO

In return we will provide:

- salary up to £20k based on experience
- a great working environment (with good music and banter) at our studios in central Manchester – with roof terrace for sunny lazy lunches and evening beers!
- a friendly, supportive and highly experienced team
- opportunities to get involved in creative brain-storming and idea origination
- Ride to Work scheme
- Bonus Scheme
- Training
- Cultural Days Out
- Generous holidays
- as much tea and coffee as you can drink

Please send your CV (with links to recent projects) and covering letter explaining why you're right for this job to jobs@corporationpop.co.uk. We are keen to appoint to this position as soon as possible and will close applications as soon as we see a CV that excites us.

Strictly and categorically NO AGENCIES please!
